

Psychedelics Drug Development Startup Seeking Experienced Obesity Expert

DELOS is dedicated to rigorously researching and developing psychedelic medicines with the aim of producing commercially available treatments that are safe, effective, and affordable.

Job Description

Position Summary:

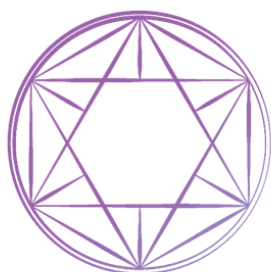

Delos is hiring for an obesity expert advisory position to help inform the creation of an obesity treatment platform using a combination of LSD microdosing and digital therapeutics. This position will require previous experience and expertise in treating obesity with conventional means though an interest in psychedelic therapeutics is preferred as well.

Key Responsibilities:

Responsibilities will include formulation of an obesity treatment strategy that will use both digital therapeutics as well as LSD microdosing (LSD being chosen here for its ability to agonize 5HT-2C receptors, its long-lasting beneficial effects, and strong neuroplasticity enhancing profile), coordination with investigators on proper implementation of obesity treatment, protocol development for our obesity-related studies, coordination with a professional software engineer proficient with digital therapeutics application design, and participation in regular team meetings.

Essential:

- Medical education with significant focus in obesity treatment.
- At least 3 years of experience working in the profession of obesity treatment.
- Experience treating obesity with medications.
- Proficiency with holistic approaches to treating obesity including diet, exercise, and consultation.

Desirable:

- Medical education from a top university.
- 10+ years of experience treating obesity.
- Proficiency with using digital therapeutics.
- Interest in therapeutic benefits of psychedelic substances.
- San Francisco Bay Area resident.
